Black and black with white; shiny straw; fawn, blue and navy hats with small brims or turban styles. All new Spring hats; formerly \$3.95 to \$5.00.

August Will Pay Heavily For First Lesson in Poker

Edmonton, May 27.—In a written judgment handed down in Supreme Court on Tuesday, Mr. Justice Frank Ford dismissed the action for the recovery of \$1,150, brought by August Will against the Bank of Montreal.

The judgment is regarded in legal and judicial circles as one of the most far-reaching and most important ever made effective in this province and is one that caused His Lordship much concern, as two precedents had to be considered with: One involving a decision of the House of Lords.

In effect His Lordship had to decide whether the bank should be liable for the amount of a forged cheque of whether it should be charged to the account of the customer who had originally signed the cheque, but for a smaller amount.

In writing his decision, Mr. Justice Ford said, in part: "Whether I am bound to take the law, as laid down by the judicial committee of the Privy Council in the case of Colonial Bank of Australia versus Marshall, or whether I can follow the House of Lords in the London Joint Stock Bank v. Macmillan, this much is clear; that if the bank, by the exercise of that care and caution the customers have a right to expect from it should or could have detected the alteration, the bank has no right to be indemnified by its customer because in that case loss has not arisen as a direct result of the customer's negligence."

Continuing, His Lordship stated: "In the case Colonial Bank of Australia v. Marshall, Sir Arthur Wilson said on this point, and it has been found that the bank could not by the exercise of ordinary care and caution, have avoided paying the cheque as altered."

In the Macmillan case, Lord Shaw speaks of the tampering being done in such a way that no man of ordinary skill can find the forgery out.

One of the most important points stressed by His Lordship is as follows:

"I am told that although the House of Lords, 12 years after the advice given by His Majesty by the Privy Council, decided that the advice was wrong and based upon the apparent misunderstanding of some passages in the judgments in a previous decision. I am bound to follow the advice so said to be erroneously given, although the latter decision commends itself to my judgment as consistent with justice and sound law and also I must wait until the judicial committee of the Privy Council has spoken and recognized that the records given in 1906 for the advice then given to His Majesty were wrong. It is said that all the courts in Canada can do is to resort to what may be doubtless, erroneously termed the judicial authority of being astute to distinguish."

Treating the bank's responsibility

His Lordship stated that "On the evidence before me, I cannot find that the bank was guilty of any breach of its duty to take care. I confess that with the knowledge I have from hearing the evidence, I can now detect alterations in the cheque, but I cannot say that the bank was negligent in not detecting them and treating the cheque as genuine. Nor do I think that there were any circumstances of suspicion surrounding the presentation of the bill, which should have led the manager necessarily to have exercised his right to postpone payment or demand the presence of the customer. This was a right, which the bank was not bound to exercise, although having regard to the size of the cheque and method used in its presentation, the manager might well have taken time to make inquiries. He may, however, have thought that a man who had saved up so much money from his wages and had gone to see the Peace River country was buying a farm in which case the size of the cheque and method of presentation would not arouse suspicion. I think in law, in the absence of knowledge of a fraud having been committed, the bank performs its whole duty if it scrutinizes a cheque presented for payment with that care which a careful banker should use."

In conclusion His Lordship wrote: "Although recognizing the gravity of the conclusion I have arrived at as to duty to apply the English law as I find it 'settled' dismiss plaintiffs action with costs."

The action arose out of a poker game. Will had opened a savings bank account at the Lacombe branch of the Bank of Montreal and then decided to take a trip to Peace River country.

Having purchased his ticket from this city North, he was filling in some time before the train's departure.

On 101 street he was accosted by a stranger and gave him the information as to his movements. On the pretext of showing him maps of the Peace River area, the stranger invited or lured him into a room, where he was later prevailed upon to play poker, even though he protested his innocence at the game.

Will won the first two "pots" and then lost. To make good his losses, he made out two cheques, one for \$50 and the other for \$52.50.

The cheque for \$50 was later raised to \$1,150 and cashed at the bank.

As a result of this civil action, forgery charges have been laid against A. H. King of this city, who will be tried this week.

In the action, H. A. Friedman, K.C., appeared for the plaintiff, while George H. Steer, K. C., and D. W. Cobblehead appeared for the defendant.

Park Lodge Opens

WILL HAVE CAFE AND
ACCOMMODATION FOR FORTY
PERSONS AT GULL LAKE
THIS YEAR

In an interesting talk with Mr. Awde, purchaser of the Sandbrook Property at Gull Lake, we were informed that by the first of July, the property will be considerably remodelled and brought up to date with a Restaurant and Lunch Counter in connection and a confectionery business. Mr. Awde has great faith in Gull Lake and says that after visiting the various Resorts of Western Canada, he is convinced that in a very short time, Gull Lake will take its rightful place as Alberta's Premier Summer Play Ground. The possibilities of the place are outstanding. It has the finest beach in Canada; the finest lake bottom and with its large size, it can easily rank as "The Finest Lake Resort in the West."

Besides establishing a cafe at the lake, Mr. Awde plans to have room accommodation for about forty persons by the time the season opens. The work done on the property this season, will only be preliminary to what he plans for subsequent seasons. "I have every intention of staying with Gull Lake and will

probably build a cottage hotel, that will be open most of the year. "I think the season at Gull Lake can be extended at least six weeks, and perhaps longer, by putting up a nice comfortable place; I am sure many hunters will come out here for Duck Shooting, and it is probable that the tourist season could be catered to from May 24th. Mr. Awde opened the famous Crystal Gardens in Victoria, B.C., for the C.P.R. in 1925, and managed it until 1929, coming to Calgary, where he was connected with the Stock and Bond Business. He has a thorough knowledge of what appeals to the summer populace and we are certain he'll put things over. Here's luck!

Make the dates June 11, 12, 13 and 15, your holiday and attend Chautauqua in Lacombe. For four days of ideal enjoyment Chautauqua cannot be equalled. The seven entirely different performances are equal to anything ever produced, even in the larger cities. The season tickets cost only \$2.50, so holders of season tickets may attend each program at the small cost of about 50c. per program.

St. Andrew's Ladies' Guild will meet at the home of Mrs. F. E. McLeod on Wednesday, June 3rd.

Why "GP" Cord Material is "cut on the bias"

A tire in service is subjected to severe stresses from every angle. To successfully stand these strains the plies of cords are criss-crossed . . . For greater strength each ply of cord is laid at right angles to the other. The strength is in this angle-wise construction . . . These plies are accurately cut "on the bias" by a machine adjusted to the fraction of an inch . . . "GP" insulated cords absorb the road shocks . . . hold against all strains and add to the strength already imparted by the Gum Cushions and Resisto tread. "GP" Tires are sold at all "Gum Cushion Tire Stations."

Who Pays the Income Tax

Of all the taxes devised by federal provincial or municipal governments, the most popular among farmers, should be and no doubt is, the federal income tax. Last year they paid about one-fourth of one per cent. of the total revenue from this tax. Of all the farmers in the Dominion, only 2,737 paid on income.

Some interesting information as to the application of the income tax is contained in an article in MacLean's Magazine. It shows that last year 143,164 individuals and 7,957 corporations paid on their incomes. Manufacturers put up \$20,149,200, or nearly thirty per cent. of the total. Financiers came next with \$11,044,813. Salaried employees contributed \$8,236,415. The army of retailers in Canada paid less than half the latter amount. The number of professional men in the country is estimated at 20,000, but only 7,340 paid income tax to the total of \$1,716,574.

The greatest number of employees made returns on incomes of \$2,000 a year. Their number was 38,709. Twenty-four thousand had incomes of between \$3,000 and \$4,000, and 10,880 earned from \$5,000 to \$6,000. The number earning \$50,000 or over was 603.

The Census to be Thorough

The census takers will be busy shortly and their inquiry will be more formidable than ever before. One of the reasons for the longer question sheet is the newly-developed interest in the subject of unemployment. Lack of work was regarded during former census years as a passing discomfort of a purely seasonal character. The present list of questions is wide in scope, the intention being to provide the government with reliable data showing the extent, location and causes of unemployment as far as possible. This information should be of valuable assistance in bringing about a federal scheme to cope with the situation.

Another new census development is the compilation of all business enterprises engaged in the distribution of goods or services. This will include wholesale houses of all kinds, retail stores and "service establishments" such as repair shops, theatres and laundries. It is hoped that important information will be gained on the system of distribution prevailing in this country. Faulty distribution has been ascribed by many writers as one of the chief causes of the economic depression.

As in the previous census every citizen will be asked to state his or her racial origin. There is yet no Canadian race although recognition is made of a Canadian nation. Each family's history is to be traced back to an outside source and racial categories will be maintained in the population returns. In cases of racial intermarriage, origin will be traced back through the male line. Ultimately this adherence to outside racial origins will be dropped because of the force of public opinion demanding the change. Three classes of citizens are entitled to describe themselves as Canadians. They are persons born in Canada who have not become aliens; British subjects who have Canadian domicile established by five years' residence; persons naturalized under the laws of Canada who have not subsequently lost Canadian domicile or become aliens.

Statistics on unemployment are to be based on conditions on June 1. Everyone is to state whether employed or unemployed on that date. Unemployed are to tell how long they have been unemployed and for what reason. Provision is made for tabulation of temporary unemployed.

Each person is counted as belonging not to the locality in which he may be at the time of the census, but to that in which he or she is regularly domiciled. The explanation lies in the fact that representation in the House of Commons of the several provinces is determined by decennial census. Quebec's representation is fixed at 65 and each of the other provinces is assigned a number of members bearing the same proportion to its population as sixty-five is to the population of Quebec. Owing to the rapid growth of the prairie provinces an addition census has been taken since 1906 midway between the decennial periods. British Columbia is now asking that a quinquennial census should be taken in that province also, commencing in 1936.

The latest official estimate of the population of the Dominion places the number at 9,654,500. This was prepared by the Dominion Bureau of Statistics. The present census will determine whether the long sought ten million mark has yet been reached.

Soil Drifting Can be Stopped

The constant high winds of late have served to emphasize the seriousness of soil drifting in this province. In some districts, crops have had to be re-seeded, and damage has been general throughout the central section.

Professor Wyatt of the department of soils of the University of Alberta declares that soil drifting can be controlled. It is a problem chiefly connected with unrotated grain crops. The practice so generally followed in the past by Alberta farmers of planting wheat crops year after year is the cause of most of the trouble. The longer the soil is cultivated the greater the tendency there will be to drift, but diversification and systematic rotation, including a certain number of grass crops, will do much to check soil drifting. The university expert states that where one inch of top soil has drifted, there is a loss of phosphorus that would cost from forty to fifty dollars to replace. Among the control measures, he recommends are: Plow when the soil is moist, if possible; leave the surface rough; at the critical period keep the surface soil ridged at right angles to the prevailing wind; alternate strips of crop and summer fallow substitutes, such as corn, sunflowers, sweet clover and the like; include a fall cereal, such as rye, in the rotation; plant more trees for windbreaks; increase diversification by keeping more land under grass. The value of trees in checking the force of wind has been demonstrated in all the prairie provinces. It would seem that the importance of systematic planting of rows of trees on every farm is obvious to all, and yet there are thousands of farmers in this province who have neglected this cheap way of protection against soil drifting. A campaign of education along this line by the department of agriculture would do much good.

To the Holders of WAR LOAN AND VICTORY BONDS

A Statement by the Minister of Finance

»»

IN THE dark days of the War, Canadians loaned to the Government of the Dominion many hundreds of millions of dollars to enable the operations of the Allies to be carried to a successful conclusion.

When Canadians loaned their money to the Government, they received bonds, which were promises to repay them the sum loaned with interest at the rate of 5% or 5½% per annum. On the 1st of October next, \$53,000,000 of these bonds become due; on the 1st of November, 1932, the maturity will be \$73,000,000; on the 1st of November, 1933, \$446,000,000; and, in 1934, \$511,000,000 must be provided for.

It would not be prudent, either in the interest of the security holders or the country itself, to wait until these loans become due before providing for their payment or conversion. Action must be taken well in advance of the due dates to protect the credit of the country. The Government believes this an opportune time to afford Canadians the opportunity to exchange the bonds, which they own maturing in the next few years, for new bonds of the Dominion of Canada carrying interest at the rate of 4½% per annum, which is a very attractive return. Prior to the maturity date of the present bonds, those who accept this offer will, of course, continue to be paid interest at the rate as provided by the bonds they exchange.

Canadians who have always shown confidence in their country are earnestly invited to exchange the bonds they now own for bonds of the new issue. By so doing, they will render less difficult the task of providing for the future finances of the country, will enhance its credit and will greatly assist the Government in the present period of worldwide readjustments.

No money will be asked for and no new bonds will be sold at this time. It is proposed to limit the present conversion to \$250,000,000, but the Government has the right at its discretion to increase the amount if Canadians indicate a general desire to continue their investments in the securities of their Dominion. The subscription books will close on the 23rd of May.

I earnestly seek the active support of my fellow Canadians in making this conversion, which is one of the largest financial operations our country has undertaken in recent years, creditable alike to Canada and its citizens.

R. B. Bennett

Minister of Finance.

Drudgery is an Extravagance

FOR five hours today this woman patiently toiled over a washboard . . . bending, lifting, rubbing . . . doing the things a tireless little Electric Washer can do in two hours. Day after day, she dusts, sweeps, cleans . . . doing things a vacuum cleaner would do twice as fast with half the effort.

With Electricity ever at hand such drudgery is an extravagant waste of time and effort. Hours that now drag slowly by might be enjoyed in doing the things she'd rather do. The woman who wishes golden hours of freedom must first break the shackles of housework. Electricity is ready to help.

The Calgary Power Company representative in your territory can procure for you any item of electrical equipment. He will tell you about the attractive terms upon which you can purchase many electrical appliances—with a small cash payment and the balance on your monthly light bills.

An Investment Opportunity

Canada is once more engaged in a major financial operation, the most important since the War. A Conversion Loan has been designed and created for the purpose of replacing in whole or in part the existing short-term war loan maturities which fall due within the next three years. Favorable conditions now prevailing in the gilt edged security markets, reflecting abnormal ease of credit, no doubt attracted Premier Bennett in his choice of time and plan for the execution of this operation, and he is now seeking the fullest co-operation of Canadian investors, who are holding bonds that fall within the scope of the conversion program. In order that the ultimate task of refunding may be reduced to an operation of simplicity, and thus avoid pressure on financial markets at a time when wider demands may be made upon the financial resources of the country.

Canadian investors will so doubt welcome an opportunity of exchanging their short-term holdings for a prime government issue maturing in a period of twenty-five years, and bearing an attractive coupon rate. There is a deeper significance, however, than mere investment opportunity. There is a patriotic appeal, a challenge to Canadians no less urgent than in war time, to carry this gigantic project through to a

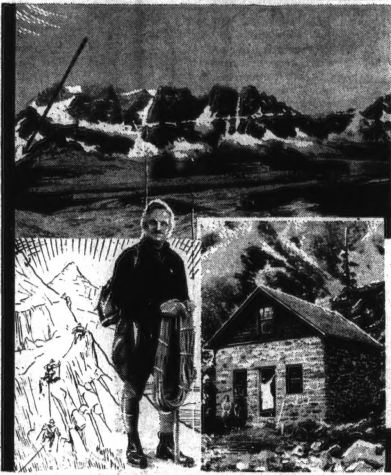

successful conclusion. The spectacle of overwhelming support would unquestionably still further enhance the financial prestige of Canada in the eyes of the world.

A total of \$1,000,000,000 of Canadian war loans mature up to the end of 1934. The 1933 and 1934 issues constitute the major portion of this huge total. The Government is asking for an exchange of securities. It is not seeking new money. The initial amount offered of conversion loan amounts to \$200,000,000. The Government reserves the right, however, to raise the total if considered wise and expedient. Government policy in this direction will, no doubt, be guided by the character of the public response.

Canada has no finer security to offer. Canadians appreciate the superior qualities of government bonds. Throughout the current period of drastic deflation, government issues have exhibited at all times a striking degree of stability and strength. The public has grown heartily weary of speculation. It is now seeking security first, and government bonds are recognized as the medium which offers the maximum degree of safety.

The Government of this country has never appealed to the investor in vain. Our record of war-time financing is a colorful chapter in Canada's national history. The appeal today is no less urgent, no less vital. The Government and the Prime Minister can count on the sympathetic and practical support of Canadian investors.

CAMP FOR HIKERS

Alpinists and hiking enthusiasts are to be given a splendid opportunity of investigating the possibilities of the Tonquin Valley, one of the striking scenic areas of Jasper National Park, through the operation from August 2 to August 15, of a climbing-hiking camp in this area, under the jurisdiction of Cyril G. Wates, noted Canadian alpinist. Mr. Wates is a climber of many years' experience in the Canadian Rockies, and has participated in many notable ascents. He will have with him Hans Fuhrer, noted Swiss guide, and the transportation and commissary arrangements for the camp will be in the hands of Jack Hargreaves, of Jasper.

The expedition to the Tonquin Valley will leave Jasper on the morning of August 2nd.

Russia's Wheat Ultimatum

The most important development which has occurred at the London Wheat Conference—is the statement of the Soviet delegation. Its main points are:

1. Russia agrees to the imposition of international quotas, but insists that her quota must be based on the five-year average of her exports prior to 1914.
2. She will not agree to any system which involves fixing minimum prices.
3. She will not agree to limitation of acreage.

One opinion voiced in the press is that the first clause of Russia's statement is an obviously unfair suggestion, because it would give Russia predominant place in wheat marketing. Yet this is the obvious stand for Russia to take. The Soviet delegates agree to the quota idea—that is they agree to setting a limit upon their wheat exports—but they insist that this limit should be based on the premise that Russia today can produce at least the same volume of wheat as she produced during her years of peak production under the Czarist regime.

Canada has not yet made a statement, but it is to be expected that Canadian delegates—if they agree to the quota principle—will insist that Canada's quota be based upon representative post-war years, the production of which is greatly in excess of her pre-war production.

The only practical quota system that can be evolved at London must be arrived at by estimating the exporting capabilities of each wheat-producing nation, the consumption capabilities of all countries, and then imposing a quota on each exporting nation according to its production capacity. It is as natural that Russia should wish to measure her capacity in terms of pre-war production as it is for Canada to wish to measure her exporting capacity in terms of post-war production.

Russia's second point—that she will not agree to any system which involves fixing of minimum prices—is inevitable, in view of the industrial policy of the Soviet Union. It is unlikely in any case that the present British Government will agree to the fixing of a minimum price, for the quota suggestion is in itself an attempt to control international trade without using tariffs which tend to raise prices in the consuming country.

Russia's third point, that she cannot agree to acreage limitation, will more than probably be stressed also in the Canadian statement, for the impracticability of this form of restriction is generally definitely established in this country.

NEW SAREPTA FARMER MUST PAY PENALTY

Edmonton, Alta., May 22—Louis Meyer, 32, Thursday was sentenced by Justice Tweedie to hang at the Fort Saskatchewan jail, on August 5 for the murder of Gustav J. Gerring at New Sarepta on April 10. The jury was out for fifty minutes.

Love by the accused for Mrs. Gerring caused the slaying, according to the crown evidence, while Meyer pleaded self-defence declaring that he shot at Gerring was advancing toward him with a club. "Gentlemen of the jury," Mr. Justice Tweedie said, following the verdict, "if it is any satisfaction to you, I agree with your verdict."

Gerring was 47 and his widow is 23. They had been married for seven years, and had three children.

The Census of Canada 1931

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

Issued by

HON. H. H. STEVENS, Minister

DEPARTMENT OF TRADE AND COMMERCE—OTTAWA

Here and There

Annual value of forest products in Canada is placed around \$500,000,000 by the Canadian Government Forestry Service, and over 200,000 persons are employed in this work.

Total value of crude bullion gold in Ontario for the first two months of 1931 is placed at \$5,217,254 as compared with \$5,352,395 for the same period of 1930, an increase of nearly 22%. If this continues, all previous records of gold output are likely to be exceeded this year.

Position of president of the Boy Scouts Association of Canada has been offered to and accepted by E. W. Beatty, chairman and president of the Canadian Pacific Railway, whose interest in boy welfare has long been recognized all over the Dominion.

John Minard, section hand with the Canadian Pacific Railway for many years and pensioned at the age of 73, celebrated his 100th birthday April 2. He does not use glasses, eats well, sleeps well and enjoys life. He has no prescriptions for exceeding the century mark.

Sponsored by the Alberta Motorcycle Association, the Western Canada Motorcycle hill-climbing championships will be decided at Banff in the Canadian Rockies on May 24 and will be followed by the 1000 mile race on May 25.

A shipment of 800,000 salmon eggs has recently been forwarded to the Dominion Fish Hatchery at Flat Lake, Restigouche County to receive treatment prior to being deposited in the Nipistiquet River as a part of the 1931 programme for restocking New Brunswick fishing waters.

Canadians, from coast to coast, heard the voice of His Excellency the Governor-General and Rt. Hon. R. B. Bennett, prime Minister of the Dominion, May 11, in endorsement of the work of the Canadian Red Cross through stations linked by the radio broadcast transmission system of the Canadian Pacific Railway Company's Telephones.

In the last analysis the railroad safety movement's success is traceable to the Dominion Fish Hatchery. Each railroad worker is constantly reminded that safety is paramount. Safety practices have become habitual, therefore they do not lessen efficiency. Railroad passenger service is now more efficient as well as safer than ever before, says a prominent United States newspaper.

The new 6 1/2 hour service between Montreal and Toronto, both ways, which came into operation on Canadian Pacific lines end of April, has proved highly popular with travellers, and heavy traffic on these trains is reported. Ottawa has also been brought half an hour closer to Montreal and passengers for Quebec have had 15 minutes clipped from the time of the journey.

Popularity of the reduced weekend fares which went into effect May 1 on all Canadian Pacific lines was assured from the start according to reports from traffic officials of the railway. They represent a saving of approximately 33% to the travelling public with reduced fares available from noon Friday to noon Sunday and return portions up to midnight of the Monday following. (740)

ENGAGEMENT ANNOUNCED

An engagement of interest to many Lacombe people is that of Sally Collier, only daughter of Dr. and Mrs. C. S. Collier, of Vancouver to Mr. Neil H. Atkinson, son of Mr. and Mrs. F. G. Atkinson, of this city; the marriage to take place in Vancouver in June. Vancouver World.

Little Locals

Attend the dance at Bentley tomorrow night.

The children will enjoy Chautauqua as much as the grown-ups—buy them a Children's Season Ticket at \$1.00. Public and High School Students can attend on Children's Season Tickets.

Remember the big dance at Bentley tomorrow, (Friday) night. The Star 5-piece Orchestra will play.

A round-up of fine talent in the big brown tent. Canadian Chautauqua, Lacombe, June 11, 12, 13 and 16. Save \$2.00! Buy a season ticket for Chautauqua.

This year's Chautauqua program is one of exceptional merit, and has something of interest for both old and young. Every item on the program is of a high order, and you should not miss a single performance.

Rev. R. W. Collins, of the University of Alberta, Edmonton, will occupy the pulpit at St. Andrew's Church on Sunday, May 31st, both

morning and evening, during the absence of Rev. Mr. Layton at Conference.

HALF HOLIDAY

The Wednesday Half Holiday will be observed by the stores of Lacombe during June, July and August. Stores will close at 12:00 o'clock noon every Wednesday, commencing Wednesday, June 3.

The football game last night, on the local football grounds, Red Deer vs. Lacombe ended in a 1 to 1 draw. The Lacombe team, however had the decided edge on the play, and it was only through bad luck that they failed to defeat the Red Deer team. There was a large crowd of people at the game.

The Baby Clinic, sponsored by the Lacombe and Lakeside Women's Institutes, will be held this year in the Town Hall, above the Fire Hall, on Monday and Tuesday, June 8th and 9th, beginning at ten o'clock in the morning. It is hoped that all mothers who can do so will bring their children during the forenoon, and thus avoid over-crowding, tire some waiting and hurried examinations in the afternoons.

Have you enough Life Insurance?

No matter how large or how small your estate, it will suffer heavy deductions before it reaches your wife or family. Doctors, nurses, hospitals, undertakers, lawyers, etc., not to mention succession duties, if the estate be considerable, will reduce the net amount payable to your heirs by anything from 10% to 25%. Take your pencil and try a simple sum in arithmetic, using an actual case as an example:

	Typical Case	My Case
Total face value of all my life insurance policies	\$5,000	\$
Estimated value of my real estate, securities and other assets	\$2,000	\$
Total	\$7,000	\$
Less 15% as indicated above	\$1,050	\$
Total estate (net)	\$5,950	\$
Invested in good securities at 5% this should yield my family an annual income of	\$297.50	\$

IS IT ENOUGH?

SCOTLAND YARD

Thursday, Friday and Saturday

Scotland Yard, to an American, is unique as an arm of the law, not only because of its highly organized state of efficiency, but also because its methods deeply reflect the nature of the British people and their constitutional life. No citizen is presumed to be guilty unless there is a reasonable proof that he has committed an overt act. The technicalities of American law, by which suspects are often held for days without a definite charge being placed against them do not exist in England. The difference in the rights of citizens of the two countries are portrayed in a great picture. This picture is filled to overflowing with thrills, and no one should miss seeing it. Comedy, "So Quiet on the Canine Front."

Coming: Bartholomew smashes through with his finest in "Dawn Patrol," June 4, 5 and 6. "Love In Rough," June 11, 12, 13.

Mr. Peter Anderson, of Winnifield, was arrested by Sam English, A.P.P., on a charge of vagrancy. He appeared before Magistrate E. H. Jones, this morning and was sentenced to 30 days in the Fort.

Grocery Department

It is the natural desire of every housewife to buy quality goods, and thus serve the very best on her table. The volume of business handled in our department means a rapid turnover, and this in itself is an assurance that our goods are always fresh. We furnish a free delivery service and you have the privilege of ordering by phone if it is more convenient than personal shopping. We insist on giving quality and service, and with fair prices we feel that our store should be an ideal shopping place.

For this week-end our window display will consist of: Fresh Strawberries; Spinach, New Cabbage, New Carrots, Celery, Cucumber, Lettuce, Tomatoes, Cucumbers, Fresh Pineapples, Grape Fruit and Oranges of various sizes.

**ALBERTA COUNTRY DISTRICTS
GOLF ASSOCIATION**

District number seven is composed of Didsbury, Innisfail, Lacombe and Red Deer and the dates for play at the various points are:
Didsbury, May 31st.
Lacombe, June 7th.
Innisfail, June 14th.
Red Deer, June 21st.
Eighteen holes played on each course.

The lowest aggregate for the round deciding the district winner. All games to commence at one o'clock sharp.

The winners of each district will go to Calgary for the finals which will be played over the Calgary G.C. and Country Club course on the 24, 25 and 26 July.

The champion of the Association will represent the Association at the Alberta Championships as the guest of the Association and he will also represent the association at the Banff tournament as the guest of the Canadian Pacific Railway.

Don't forget the first game at Didsbury on Sunday, May 31st, at 1 p.m.

A. Belcher, Convenor District No. 7.

MURDER TOLL OF THIRTEEN

A wave of family murders, induced by unrequited love, domestic and financial worries, took a toll of 10 lives in Western Canada during the past week, and death, too, claimed three of the players. The fourth, named by a coroner's jury, as the slayer of three, was fighting a battle against death in a Winnipeg hospital.

Six young girls, a youth of 18, an aged woman, a middle-aged housewife, and a 46-year-old farmer were the victims. The slayers took the heaviest toll in Alberta, the list including two triple murders since Tuesday.

Tuesday, Joseph Michalavik, 35, of Edward, Smoky Lake district, Alberta, shot and killed his 70-year-old mother; a 13-year-old niece, and his brother, Stephen, 45. Michalavik died in an Edmonton hospital Saturday morning from self-inflicted wounds.

Thursday at the far northern village of Beaver Lodge, Col. Hillard Lyle, 62, distinguished soldier, shot and killed his wife, formerly Mrs. J. C. Sloan, of Owen Sound, Ont. He then committed suicide. A daughter of Mrs. Lyle witnessed the tragedy.

Friday, R. C. Voight, of Camrose, dependent over his dismissal from a business post, took his family for an automobile ride into the country. Only one returning alive. Voight shot and killed his wife and two daughters on a lonely rural road and then drowned himself in a nearby lake. A four-year-old son was unharmed.

Verdict of murder and suicide was returned after nine witnesses were

Lacombe Chautauqua Opens June 11th for Four Days

"BOUGHT AND PAID FOR"

"Bought and Paid For" has good plot, is full of incident, and has dialogue of rare power. The characters are genuinely human, and its touches of light comedy are altogether infectious. The Canadian Players—an all-star cast—will present this play on the opening night.

heard at the inquest Saturday afternoon.

In Elmwood, a suburb of Winnipeg, two girls and an 18-year-old youth were found dead in their home by the mother, Mrs. Lillian Walters. John Streib, 44, is alleged to have confessed to police, and has been named by a coroner's jury as the slayer. He is in hospital suffering from self-inflicted razor wounds.

AN UNFAIR TAX

There is one section of the Town-act, which, under present conditions appears to be very unfair to us. It is the section in which is imposed the tax for educational purposes. The Act says "Every male resident of the district of the full age of 21 years, who has resided therein for a period of one month or over, shall pay a tax annually of \$4.00."

Why pick on the defenceless males? Why not let the woman pay their share? Years ago when women were not considered to be "persons" the act was fair enough, but since Nellie McClung and other of our leading suffragettes had the nerve to strive for and put over "votes for women" the old state of things has changed.

Of course, when the Town Act was brought into existence women had very little say in public affairs; they had no voice in the selection of representatives in parliament. It was perfectly all right that under those circumstances they should not be asked to pay a "poll tax."

But this is all changed. Our legis-

lators should get busy and have this iniquitous act changed. There are in Alberta thousands of women earning large salaries, in fact women workers in Alberta receive the same wages as the unfortunate males, and yet they escape the \$4.00 tax. Why discriminate?

BEN SPENCE MIGHT EXPLAIN THIS

Washington, D.C., May 26—From figures compiled by the research department, the citizens of the U.S. are spending \$2,858,000,000 annually for intoxicating beverages, in spite of the prohibition in force.

The research department concluded "the illicit liquor business has become one of America's major industries," surpassing the \$2,793,166,812 wholesale figure for passenger automobiles in 1929, and approaching the gasoline expenditure for that year.

HIDEOUS MUSIC

An interesting controversy is being waged in Calgary papers concerning the good and bad qualities of cats, and the weight of opinion appears to be definitely on the anti-feline side. Strangely enough, however, among all the hostile view expressed, no writer has touched on the time honored and essentially major grievance against the cat. It is as a disturber of nocturnal peace and rest that the cat has been arranged most bitterly in the past. Volumes have been written on this feature of feline life, and millions of missiles must

have been hurled violently from upstairs windows at catwalkers in the past few decades. There is no contention of sounds quite so hateful to the man seeking repose after a hard day's work, no concourse of vocal strains quite so penetrating to a weary ear drum, as a few cats can provide without apparent effort.

Scientists have often turned their learned attention to the discovery of the impulses that turn a quiet, inoffensive cat in daylight into an instrument of horrible discords in the nocturnal hours. No satisfactory solution of the problem has ever been reached and yet it would appear plausible that the reason why a cat is so woful and cantankerous at night is because it sleeps quietly most of the day. If this explanation does not fully cover the ground—and something may be lacking in the hypothesis—then the reason must lie in the assumption that even the most domesticated cat never quite loses its ancient tigerish propensities.

MURDER AND SUICIDE AT BEAVER LODGE

Beaver Lodge, May 22—Col. H. Lyle, general store proprietor, is alleged to have shot and killed his wife at the doorway of their house at 8:00 p.m. Thursday, gone into the basement and ended his own life with the same weapon.

Domestic troubles are blamed for the shooting. Mrs. Lyle was formerly Mrs. Sloan of Owen Sound, Ont., and was mar-

Now for the Warm Days

DAVID HAY Men's Wear Lacombe
Cleaning, Pressing and Repairing, Promptly Done.

died a second time two years ago at Owen Sound.

Collis, Mrs. Lyle's youngest child, ran out to the lawn of the residence at 8 p.m. Thursday and shouted for help. Knut Knutson, garage operator, heard her cries, ran to the house and found Mrs. Lyle on the floor with a gun-shot wound in her breast.

As he entered the house he heard a shot, went downstairs and found Colonel Lyle dying from a supposed self-inflicted wound.

Town Constable Butler was notified immediately and he took charge of the situation. Dr. Carlisle was summoned from Wembley, the resident physician, Dr. McLean, being absent. When Dr. Christie arrived

he found both persons to be dead.

\$200.00 worth of work will handle 100 acres of improved land. Balance \$100.00 yearly. J. W. Wilke, Lacombe.

7 acres highly improved, near Cloverdale B.C. to trade for Alberta farms. J. W. Wilke, Lacombe.

As an accommodation for people attending Chautauqua from outlying points, this year there will be a limited number of reserved seats offered. Seats will be reserved at the nominal charge of 50c. for the duration of Chautauqua, which amounts to slightly over 7 cents a program.

The Executive of the Lacombe Presbytery will hold a meeting at the home of Mrs. W. C. Sweet, on Saturday, June 6th, at 2:30 p.m.
